One EPIC Place New Paltz, NY

Full-Stack Engineer Intern

Sept 2019 – Dec 2019

- Developed a full-stack web application to allow clients to rent rooms from the company and allow staff to view data analytics from the stored users and rented rooms information.
- Created an extensive MVC patterned REST API using JavaScript, Node, Express, and MySQL.
- Engaged in an agile environment using weekly scrum meetings and stories for efficient production.

PROJECTS

Fitness Tracker App

GitHub | Live Site

- Worked on a web application that let users log their exercise workouts and upload and share photos of themselves exercising.
- Sculpted a reactive frontend for any screen with a fluid user interface for immersive interactivity.
- Programmed a versatile backend using a REST API and an MVC design pattern to accommodate various
 operations and to ensure user account safety.

Math Suite GitHub

- Worked in a group of 3 to build an "educational suite" application for mathematics for elementary-aged students.
- Designed the Admin Menu and General Use Case using Microsoft Visio.
- Created common core math-based assignments, "Adding 3 Numbers" and "Volumes of Cubes" using Java and JavaFX.

LEADERSHIP EXPERIENCE

Economics Club

Social Media Manager

New Paltz, NY

Feb. 2021 – May 2021

- Designed logo for the club and created flyers for upcoming events using Canva.
- Managed and oversee social media content.
- Created engaging text and image content.
